Board Meeting Minutes — Q1 2026 (CONFIDENTIAL)

Author: Board Secretary

Department: Confidential

Last Updated: 2026-03-31

Classification: confidential

Minutes of the NovaTech Board of Directors meeting held 2026-03-30 via Zoom. Attendees: 5 board members, CEO, CFO, CTO, General Counsel. Key resolutions: (1) approved Project Atlas budget of \$2.8M for FY 2026 (amended from the originally proposed \$2.4M following the March security incident remediation costs); (2) authorised preliminary due diligence on Project Nightingale (SearchAI acquisition); (3) approved Series B mandate to Goldman Sachs.

1. CEO Quarterly Update

ARR reached \$9.2M as of March 2026, up 28% QoQ. Project Atlas private beta has 34 enterprise users; NPS of 44. The March 2026 security incident was disclosed in detail; the Board expressed concern about the timeline to SOC 2 Type II certification and its impact on enterprise sales. The CISO presented the remediation roadmap; the Board approved additional \$400K security budget.

2. Project Atlas Budget Resolution

Resolution 2026-Q1-01: The Board approves a revised Project Atlas FY 2026 budget of \$2.8M, amended from the \$2.4M approved at the December 2025 board meeting. The additional \$400K covers March 2026 security incident remediation, SOC 2 audit fees, and additional GPU capacity for the reranker service. Vote: 5 in favour, 0 opposed, 0 abstain.

Note: The Budget Forecast 2027 document incorrectly references the Project Atlas FY 2026 budget as \$2.4M; the correct approved figure is \$2.8M per this resolution.

3. Series B Mandate

The Board authorised management to engage Goldman Sachs as lead advisor for a Series B fundraise of \$14–20M, targeting close in Q4 2026. The Series B will fund the FY 2027 headcount plan and Project Nightingale acquisition if due diligence is satisfactory.
